## PROFILE INFO

Muhammad Ali Joya – BSIT graduate (CGPA 3.34) skilled in HTML, CSS, JavaScript, React, ThreeJS, Kotlin, Android Studio, Git, Docker, Firebase & AWS Services. Passionate about clean UI, responsive design and turning ideas into working web or mobile products.

## WORK EXPERIENCE

### Tech Harbor

Web Developer

10/2024 - 04/2025

- Built responsive, mobile-first landing pages with HTML5, CSS3, and vanilla JS;
- Improved layout structure and visual components
- Deployed static site to Netlify CI/CD, reducing client update cycle from 2 days to 30 min

### C & W Resources

Web Developer Intern

07/2024 - 09/2024

- Created landing pages and enhance UI using HTML, CSS & JavaScript
- Implemented responsive-design techniques to ensure cross-device compatibility
- Learn HTML, CSS and JavaScript with the developers

### HAZZA Institue

Cloud Computing

(3months) 2025

- Gaining hands-on experience in containerization with Docker and introductory Kubernetes orchestration.
- Built and automated CI/CD pipelines to integrate, test, and deploy cloud-native applications efficiently.
- Leveraged core AWS services—EC2, S3, RDS, IAM—to design, provision, and manage scalable cloud infrastructure.
